

DEER CATCHER

“Make Your Plot a Hot Spot.”

HIGHLIGHTS

- Perfect for planting in summer through early fall
- Seeding rate is ~ 25lbs per acre
- Fast-growing and built to provide forage well into the early winter.
- Packed with high volumes of quality forage to keep deer coming back.
- Tough enough to handle heavy grazing pressure without giving out.
- A diverse blend that will attract both deer and turkey from summer through the first snowfall.
